SEATTLE
UNIVERSITY

Jessica C.

*State Need Grant, Work-Study,
Institutional Aid, Loans*

College tuition is expensive, and state and federal aid made a difference. Financial aid has opened access to higher education and allowed me to thrive.

Nursing is a career I wanted to pursue ever since I was nine years old. I was accepted into Seattle University's College of Nursing upon admission, and have been practicing my skills at the James Tower Clinical Performance Lab with patient stimulator models that mimic clinical environments.

To legislators and donors, I don't know what I would have done without all of your support. Again, thank you!

*State Need Grant, Pell Grant, SEOG,
Institutional Aid, Loans*

State Need Grant and federal aid made college a possibility for me.

I have always done my part in school, but with a mother that has MS and an older father working when he can, college would not have been a reality without your support!

Thank you very much!

ICW STUDENT AID ALL-STAR

Halina W.
2013 Biochemistry Major
Kent, Washington

SEATTLE
UNIVERSITY

Halina W.

State Need Grant, Institutional Aid, Loans

Coming from a single parent family, state aid has been extraordinarily helpful in reducing my future college debt.

Without this aid, I would probably not be attending Seattle University right now.

Thank you for your support!
