*State Need Grant, Pell Grant,
Institutional Aid, Loans*

Financial aid has allowed me to continue attending my university. Without this aid, the expenses would merely be too great for me to attend (also too great for me to complete a degree in four years).

It is my hope to graduate and then go on to medical school and become a physician. More specifically, I am hoping to become a geriatrician and give back to the elderly who have given our society so much already.

I would like to take this opportunity to say thank you for allowing these programs to continue. I know that this program has benefitted many students, and that the further continuation of it will benefit so many more.

Institutional Aid, Loans*

Without financial aid I would not be able to afford my schooling. My parents are both teachers and work very hard, but they don't make enough money to put three children through college. Walla Walla University has worked very hard to make it possible for my siblings and myself to pay for our college education.

I am currently working on my bachelor's degree in nursing. The education I have received is high quality and I would not be able to afford it without state grants.

Thank you for keeping the education of my generation and future generations in mind as you work on this subject. Without outside support many of us would not be able to get as good of an education. Just wait, we'll be taking care of you soon.

Emily A.

2014 Nursing Major
Stanwood, Washington

Emily A.

*State Need Grant, Pell Grant,
Institutional Aid, Loans*

Financial aid is the only reason I'm in college at Walla Walla University.

I come from a poor family where we were growing up we were constantly going to food banks and sleeping in a cold home.

No one in my family has ever gone to college, and for me to go was just a fleeting thought. College was a dream that probably was not going to happen.

I went to a boarding academy at 14, and learned that there was hope for me to excel. I worked many hours to pay off my tuition bill and studied hard for good grades. My hard work paid off and my dream to go to college was realized.

I greatly appreciate what financial aid has done for me. Thank you!

Nancy P.

2014 Social Work Major
College Place, Washington

Nancy P.

*State Need Grant, Pell Grant,
Institutional Aid, Loans*

I am so grateful for the aid that I have received!

Programs like State Need Grant are what make America what it is; a place where people from any background can thrive.

Thank you for your service!

Amanda S.

*State Need Grant, Work-Study,
Pell Grant, Institutional Aid, Loans*

To say that I would not be able to attend college without financial aid is not a dramatization; it is very true for me and many others that I know.

My parents have wanted me to go to college, but did not have the money to do so. Financial aid has made that all possible for me and many others.

By getting a higher education I hope to make the biggest difference I can for those in need. I hope to make a significant difference, but even a small one will do. That is why I am here.

I want to give thanks to all those who help make financial aid possible and wish to encourage to keep it up. We are the future; we want to take care of you. We can do that better with higher education. Thank you for your time and efforts.

Bryson B.

2014 Computer Engineering Major
College Place, Washington

Bryson B.

*State Need Grant, Pell Grant, SEOG,
Institutional Aid, Loans*

Financial aid has allowed me to truly have peace of mind when it comes to the funding of my college education and experience.

Because of financial aid, I've been able to be the president of an Engineering Club, be involved in numerous musical groups and activities, and be active in a youth group.

I have loans, but all are subsidized and allow me to pay almost nothing out of pocket at the present time.

It has been a true blessing to receive this fantastic education.
