State Need Grant, Work-Study, Pell Grant, Institutional Aid, Loans

I almost did not go to college, but the State Need Grant helped make college accessible. Work-Study gives me experience in the workplace and trained to be more professional.

I want to help those who never thought about going to college.

Daisy

State Need Grant, Pell Grant, Institutional Aid, Loans

My family does not have the resources to help me with my education.

I want to thank those who support and who are there to give us the State Need Grant. Without it, I wouldn't be here.

Mario

State Need Grant, Pell Grant, Institutional Aid, Loans

My parents helped with whatever little they could, but without financial aid, I would not be here at Heritage studying to be a nurse.

Rosalinda

State Need Grant, Work-Study, Pell Grant, Institutional Aid, Loans

Raising two children on my own, the Washington State Need Grant made it possible for me to come to college. Work-Study helps with income and experience. Without both programs, I would not be here now.

I graduated high school in 1998, and it took me 12 years to go to college, but I made a pledge to me and my children to further my education

Adriana

State Need Grant, Pell Grant, Institutional Aid, Loans

I initially came to Heritage to get my GED. But now I am in college working on my business degree.

I am the first in my family to attend college, and I had no idea where to begin to find the money to pay for it. But thankfully I was awarded the State Need Grant and other aid.

Because of financial aid, I am here today.

Wil

Lost State Need Grant in 2010, Pell Grant, Institutional Aid, Loans

The State Need Grant tremendously helped me, as I need to focus on my studies.

I did not receive the grant this year [due to budget cuts], but it is a critical program.

Kyle

State Need Grant, Pell Grant, , Institutional Aid, Loans

The Washington State Need Grant has been so important for me to reach my goals, and my community.

Being a person who from a low-income family, and so close to dropping out from high school, I want to show people that they can change.
